

Making money move

sage pay

Sage Pay provides secure online credit and debit card payment processing, allowing you to accept payments through your website, over the phone or by mail order. Easily integrated into eCommerce websites, Sage Pay offers merchants exceptional value for money without compromising on the level of service and functionality provided.

Key Benefits of Sage Pay

Flexible, easily integrated solution

Most set up is done online, making Sage Pay quick and easy to integrate. We provide three integration options as part of our service. These options allow you to set up Sage Pay to meet your precise payment processing and transaction requirements, no matter how big or small your transaction activity.

Effective Fraud Screening & Security

Sage Pay has achieved Level 1 PCI DSS (Payment Card Industry Security Standard Council), the highest level available. Our powerful fraud screening tools help to minimise fraudulent card activity. We also offer AVS and CV2 Fraud Screening and Free 3D Secure (verified by Visa and Mastercard Securecode)

24/7 Customer Service

Our experienced and professional Customer Service team is available 24 hrs a day, 7 days a week, and only a 1800 phone call away.

Reliable brand

With over 28,000 customers within UK and Ireland, Sage Pay's continuing growth is fuelled by our customers' trust in the service and in Sage. Now we bring that same reliable service to Irish businesses.

Competitive pricing

Sage Pay offers merchants exceptional value for money without compromising on the level of service and functionality.

Sage integration with Sage Pay's payment gateway

Sage Pay integrates with Sage 50 and Sage Instant Accounts enabling users to process secure mail order / telephone order (MOTO) payments from within their Sage software. Payments are automatically reconciled back into your Sage software for greater time savings.

Additional Benefits

Every Sage Pay customer has instant access to a variety of tools including powerful management and reporting features, recurring payments, authorised and 'release' payments, void transactions and refunds, fraud monitoring and transaction reports.

Further benefits include PayPal integration, multiple platform software plug-ins and Free Multi-Currency set up.
